Baripada, Odisha

Summary

Currently, I am pursuing my B.Tech degree in C.V.Ramn Global University in Computer Science and Engineering. I have had prior knowledge of both frontend and backend for more than a year. I can work in both teams and single. But I prefer to work as a team.

Experience

Front End Developer Intern

iTalent India • Nagpur, Maharashtra   06/2021 - Present

- Work with the IT department to build new features for the company

React JS Developer (intern)

SleekSite.in • Nagpur, Maharashtra   04/2021 - 06/2021

- During the internship, we build an E-Learning platform. My main responsibilities were to build the responsive components and API integration.

Web Developer Intern

The Sparks Foundation   02/2021 - 02/2021

- Here I got a chance to learn basic about *PHP, MySql, HTML, CSS, and AWS cloud hosting*. The first project I build was **The basic banking system**, where a user can send money from his account to another user. The second one was **Charity/Donation Web Site.** From this website, a user can donate to the organization. After the successful transaction, a mail will receive to the respective email address.
